v1 The better world that quietly lies
 Beyond your bridge of troubled sighs,
 Noworryland.

ch1 At peace with your sixes and sevens,
 At ease with your fingers and thumbs,
 At one with your arse and your elbow,
 Content to hold onto what comes.

v2 The paradise that bravely waits
 Beyond your trail of sorry states,
 Noworryland.

ch2 Set free from your qualms and your doubting,
 Released from your fears and your dread,
 Best mates with the world and his uncle,
 And all those who live in your head.
